

Greetings,

Thank you for taking the first step in **discovering** how you and your family can become part of the **NEW LIFE CHRISTIAN ACADEMY** community. We look forward to showing you more of who we are and how we develop and equip our students for college and beyond.

NLCA is a private, Pre-K through Grade 12 college preparatory school that prides itself on academic rigor and achievement from an intentionally Christian worldview. We are committed to building strong academic, social, and spiritual foundations that will carry students on to a life of service and faith that brings goodness to their communities and, ultimately, the world. We accomplish this by partnering with families to educate each child by providing them the resources, opportunities, and tools to be successful.

Here at **NLCA** you will find **dedicated** faculty and staff, **challenging** courses, and **competitive programs**. But, more importantly, you'll find a Christian community that is dedicated to the growth and success of each student from Pre-K through Grade 12. We understand that the journey of selecting a school for your child is full of questions and weighty decisions, and we look forward to walking with you through this process to discover the best opportunity available for your child.

We invite you to visit us and see for yourself what sets **NLCA** apart. We want you to experience this special place and discover how we inspire each student to fulfill his or her potential, and we look forward to partnering with you to discover how **NLCA** might be the next step on your student's journey.

Sincerely,

Dr. Jacob J Bernard, Ph.D

Head of School
